SUMMARY

Through internships and work experience, I've gained expertise in HTML, CSS, JavaScript, and React.js. I've built dynamic applications with Next.js and Node.js, translated designs from Figma, integrated APIs, and contributed to team projects using Jira. I'm detail-oriented, eager to learn, and focused on delivering user-centric solutions.

SKILLS

- Responsive Web Design
- Component-Based Architecture
- State Management (React/Context API)
- API Integration & JWT Authentication
- UI/UX Design Principles
- Reusable Component Design

EDUCATION

2021 - 2023

Dokuz Eylül Üniversitesi

Associate Degree of computer programming

2023 - 2024

Meta

Frontend developer Certificate

WORK EXPERIENCE

React-developer

Danum group (2025-present)

- Built and maintained React components for dynamic user interfaces.
- Collaborated with teams to resolve UI/UX issues and ensure smooth functionality.
- Built responsive interfaces using React, Tailwind CSS, and Radix UI.
- Integrated REST APIs and developed reusable, accessible components.

Front-end developer intern

Florya (2024 - 2024)

- Developed prototypes with HTML and CSS.
- Analyzed requirements for feature development and improvements.
- Communicated project status and issues with the team.
- Bridged UX designs with front-end implementation.
- Applied debugging techniques.
- Created responsive web pages using HTML, CSS, and JavaScript.
